

the optimization company

FE-DESIGN – development and successful implementation of ideas.

FE-DESIGN is one of the leading engineering and software companies to offer solutions for virtual product development. Customers around the world use our optimization and simulation products during the development of mechanical components in the fields of automotive, wind energy, aerospace industries as well as the suppliers of these industries. Among our customers are for instance BMW, AUDI, Airbus, Siemens, Bosch. The main office resides in Karlsruhe, Germany, with branches in Munich and Hamburg, Germany, as well as Sofia, Bulgaria.

Our development team in Sofia is looking for a

Senior software development engineer (male/female)

Function:

You will add knowledge and experience with large software development systems and thereby support the current development team in the ongoing development of our CAE optimization system, TOSCA.

Profile:

You have experience with large software development projects where design, redesign, restructuring of complex software systems was part of your work. The following qualifications are required:

- Experience in the development of large software systems in C++
- Python, Perl or other script languages
- Self dependent and target-oriented personality
- Team player
- First experiences with numerical simulation software are desirable
- Excellent level of English
- German will be an advantage

Possibilities:

We offer you:

- development in a dynamic, growing and international oriented company
- interesting and varied development tasks within simulation and optimization of mechanical components
- elaborate initial training
- salary and bonus above average according to performance and experience

Do you want to be a part of our motivated team with ambitious goals?

Are you looking to be part of a market where potential of growth is large?

Are you ready to take on the new challenges?

We are looking forward to receiving your application if you can answer 'yes' to the above questions.

Please send your application with first possible start date and salary expectations to:

FE-DESIGN Bulgaria OOD, ul. G. Bradistilov 6, 1700 Sofia
